***Examiner's Comment***

At least claim 1 uses the terminology "forward flexion" wherein applicant remarks dated 2/2/06 stated:

Turning first to the indefiniteness issues, in paragraph 0003 of the specification, it is explained that in bio-mechanical terms, flexion usually indicates decrease in the angle between body segments. It will be understood that rear flexion occurs when the knee is bent as if to squat down while forward flexion may occur when the knee is locked in a standing position and moves somewhat in a double jointed fashion in the opposite direction of rear flexion.

The Examiner interprets forward flexion as "hyperextension" which is better known in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bruce E. Snow whose telephone number is (571) 272-4759. The examiner can normally be reached on Mon-Thurs.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Corrine McDermott can be reached on (571) 272-4754. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
